

## Self-closing wrap

Material: Polyester monofilament and multifilament

Colour: Black

Temperature range: -50°C~+150°C

Melt point: 240±10°C

Properties: AD-F self-closing wrap is a non-expandable sleeving woven from monofilament (weft) and multifilament (warp) polyester yarns. It provides a lightweight, cost-effective and tough solution for the protection of a wide range of components. Its inherent flexibility allows it to bend, coil and conform to irregular shapes, while its open design allows it to be installed on completed assemblies.
